

## *Congratulations!*

You now own one of nature's wonders...  
a diamond that will increase in value over time.

Wear your diamond with pride  
because it is one of the highest quality gems  
you could possibly own.

### *Cut*

Your diamond was “*Cut to perfection in Antwerp, the diamond capital of the world.*” Your full cut, brilliant diamond contains 57 facets to release its maximum fire and sparkle. For centuries the very best diamond craftsman have studied and applied their trade in Antwerp, Belgium. Over 80% of all the diamonds in the world are bought and sold here but, only 60% of the very best diamonds are actually cut and polished in Antwerp. Demanding buyers all over the world know that a diamond cut in Antwerp equals perfection.

---

### *Color*

Your diamond is guaranteed to have G-I color that provides a very bright near colorless brilliance. Diamond color grading begins at D (colorless) and moving through the alphabet all the way to Z.

### *Clarity*

Your diamond is guaranteed to be SI1-SI2, prized by top jewelers, to provide a superior brilliant sparkle and natural fire. Virtually all diamonds have some natural phenomena or internal marks. These inclusions, in lesser quality diamonds, are large enough to be seen with an unaided and untrained eye. In high quality diamonds such as yours it will require a jeweler's 10x- magnifying loupe and a trained eye to see any phenomena. Rest assured your diamond's clarity is such that it provides superior brilliance and maximum sparkle.
